SUMMARY

.Net Developer at Itelligence TR; working on .Net Technologies (.Net Mvc, .Net Core), Vuejs, Restful APIs, Web API, Microservices and N-Tier Architecture.

EDUCATION

2016 – 2020

Gazi University

Faculty of Engineering / Computer Engineering

SKILLS

Languages English (C1: Upper-Intermediate)

Software C#, .Net, .Net Core, Vuejs, HTML, CSS, JavaScript, Git, SQL, Java, Unity 2D/3D.

Hobbies Football, Table Tennis, Swimming, Cartooning(Caricature), Counter Strike Global Offensive, Rally&Rally Cross, Fishing

EXPERIENCES

09/2020 – Present Itelligence TR / .Net Developer

I worked on e-Transformation projects and solutions like e-invoice, e-signature etc. using .Net Core and Vuejs by providing n-tier architecture. (Atasehir/Istanbul)

02/2020 – 08/2020 xysinav.com – Lider Akademi / Back End Developer

We have changed xysinav.com which was an asp.net mvc 5 project, into .net core project by providing n-tier architecture, api gateway ocelot, microservices, security and Vuejs. At present, we work on online exam project and its development to make education easier. (Bakirkoy/Istanbul)

08/2019 – 09/2019 Daysoft Engineering Co. Inc. / C# Developer Intern

I took part in the project to implement the assembled operations in virtual environment before the production stage to get ready for use, in order to avoid certain risks and to have experience against possible situations. Within the scope of this project, we used Blender application for 3D modeling, Unity platform for programming and HTC Vive Pro Virtual Reality Glasses for virtual reality. I have developed the coding part using C# Programming Language.

03/2018 – 09/2018 Varulf Yazilim / C# Developer

I took part in the 3D game project started to be given to educational institutions. The mission of the game is to try to answer the English questions correctly before a running panda fails and to complete the course. I have developed coding and design part. C#, Unity 3D and Adobe Photoshop were used in this project.

08/2017 – 09/2017 Enerjisa A.Ş. / IT Specialist Intern

Enerjisa's IT department in one of Turkey's leading electricity distribution company worked at SAP BASIS module. As a result of this task, I took part in system based management processes such as user authorization and profile definitions, performance studies, backup operations on SAP, monitoring all SAP infrastructure and taking necessary actions, performing client management (Deleting, Creating, Moving).

SEMINARS

03/2014	Prof. Dr. Doğan CÜCELOĞLU – Leadership for Meaning, Enhanced And Strong Life
03/2014	Prof. Dr. İlber ORTAYLI – National Leadership Symposium
11/2014 Education	Prof. Dr. Ruhi KAYKAYOĞLU – Contemporary Engineering
05/2015	Prof. Dr. Erhan EROĞLU – Professionalism In Business
12/2015	Doç. Dr. Salih BIÇAKÇI – NATO And Cyber Security
03/2016	Prof. Dr. Yesim TODUK – Leadership In Digital Age
11/2017	Pitney Bowes & Basarsoft – 12th MapInfo User Conference (GIS)
